

## REBEL DEMAND ON GEN. CASTRO.

Called Upon to Surrender, He Promptly Refused.

## PANAMA TO BE ATTACKED.

Herrera Sends Note to Leading Congress, Saying Marquis's Government is Not Lawful.

Colon, Colombia, Feb. 7.—The wife of a government soldier who was made a prisoner by the rebels last month and who managed to escape from Gen. Herrera's camp, arrived at Panama last night. She reports that the rebel forces, to the number of 1,500 men, are camped at Penonome and Chame, about seventy miles southeast of Panama, and that Gen. Herrera and his staff are at Chame.

According to the woman, Gen. Herrera sent word to the government general, Castro, to surrender. The latter answered that he had been sent out to fight and was ready to do so. The plans of the revolutionists indicate their intention to attack Panama, but they are probably awaiting reinforcements. The only fighting so far has been between an exploring party in the vicinity of Tonosi, where the revolutionists landed.

Advices from Panama say a note from Gen. Herrera was addressed to the American, French, British and German consuls there. In it Gen. Herrera declared, among other things, that the government of Senor Marquis, the president of Colombia, was not lawful and that therefore the rebels, although deploring the bloody results of the war, would fight to the end for the ultimate success of liberal principles.

Gen. Herrera proposed that the consuls address the respective governments to declare the line of the Panama-Colon railway to be neutral ground, on which the government should not build entrenchments or dig trenches, and only the police force be left to guard the line. Gen. Herrera said he proposed, if possible, to compel the government to attack the liberal forces and that the liberal army had a strong fleet and army, provided with cannon, etc.

Gen. Herrera also declared in his note that the liberals considered the capture of Panama and Colon to be necessary for the development of their military plans, that they would not obtain such results, and that in due time they would notify the consuls of such proposed action, although twenty-four hours for foreignness to take refuge at a place of safety to be agreed upon with the consuls, and that the point so selected should not be fired upon. The consuls, which Gen. Herrera defended in Panama in July of 1900.

Gen. Herrera said that should the consuls so desire, he would meet them, as well as representatives of the Colombian government, on board the United States cruiser Philadelphia at the island of Taboga.

In government circles here it is believed that Gen. Herrera wants to gain time for the government cannot accept the terms he offered. When the expected reinforcements arrive on the Panama from Puerto Colombia, the government will begin an energetic and active campaign against the liberal Panama and Colon are now estimated by 2,000 men.

Gen. Castro has 1,500 veterans under his command, giving a total of 2,500 men. The most sanguine liberals do not claim that Gen. Herrera has over 1,500 men.

Gen. Herrera said at the conference of the consuls, which he attended, that he would not recognize, even indirectly, the right of the rebels to make the consuls meet them, but that the consuls should not correspond to the liberal consuls, that even if they were belligerents the consuls would be required to have the permission of the Colombian government to communicate with them.

ment to communicate with them. Gov. Arjona then demanded that the consuls send their answers to Gen. Herrera, promising to forward them to the liberal general by messenger. To this the consuls agreed.

## NAVAL CONSTRUCTORS.

Long Disapproves of Recommendation to Admit Them to Service.

Washington, Feb. 8.—Secy Long has disapproved of the recommendation of the general board respecting the admission of naval constructors to the service. The board has been giving a great deal of attention to the matter of insufficient number of junior officers at present and the prospective inadequacy of the naval academy to supply the need. Thus far the board has been unable to hit on any plan that will relieve the situation entirely in the immediate future, but as a measure of amelioration it has recommended that the practice be discontinued of transferring to the construction corps the three cadets who annually graduate at the head of their class at Annapolis. Instead they would give three cadets to places and appoint naval constructors from civil life. Secy Long, however, has disapproved of this recommendation, though he has qualified the disapproval by an amendment of the present practice so that the three highest graduates are not necessarily to go into the construction corps, but that the vacancies in that corps may be filled by the selection of any one of the graduates.

## A YOUNG MAN SHOT.

Killed in His Father's Home in a Mysterious Manner.

Pullman, Wash., Feb. 8.—John Herbert Pentice, 21 years old, was shot and killed at the home of his father, two miles west of town, at 2 o'clock yesterday morning under most peculiar circumstances. A corner's jury returned a verdict of death from a gunshot wound inflicted by his own hands, but does not say whether it was suicide or accident.

A deep air of mystery surrounds the affair. Deceased lived with his father, a widower. The father, John Pentice, is 50 years old, and very eccentric. He recently sold some land and is believed to have money hidden about the place. Yesterday he was in Pullman and acted queerly. He bemoaned his fate, saying that a few years ago he was worth \$100,000 and now is nearly broke. Deceased inherited an estate from his mother in Yamhill county, Oregon, valued at \$10,000. He expected to get this next month.

## Warren Leland, Jr.'s Widow Married.

New York, Feb. 8.—Mrs. Kate A. Leland has been married to Wm. J. Elias, a wealthy business man of this city. Mrs. Leland was the widow of Warren Leland, Jr., son of the widely known hotel proprietor, whose wife and daughter were killed in the Windsor hotel fire in this city.

## Row Among Carpenters.

New York, Feb. 8.—Members of the Brotherhood of Carpenters have refused to work on buildings in this city with men of the Amalgamated Carpenters' society, and in an effort to be discharged of the Amalgamated men, the brotherhood ordered strikes on ten large buildings now in course of construction. Members of the Amalgamated society were at once put in the places vacated by strikers.

## Large Imports of Sugar.

New York, Feb. 8.—The board of trade returns for January say a London dispatch to the Tribune, confirm recent rumors that large stocks of sugar have been imported in anticipation of the forthcoming budget. Imports of sugar for the month amounted to 5,540,434 hundredweight, or about double the quantity imported in January, 1901.

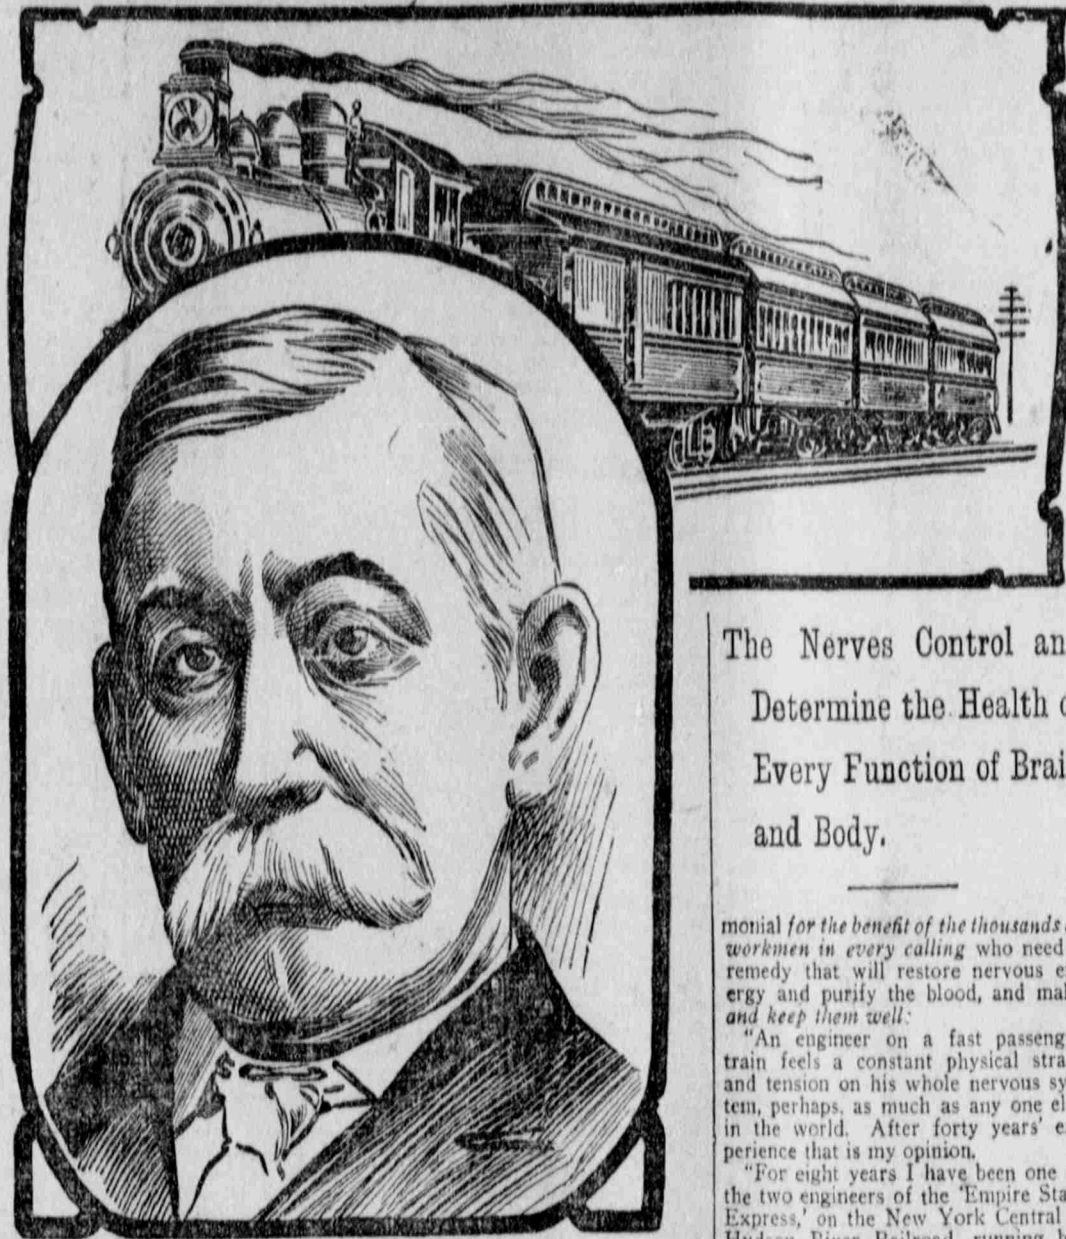

## GERMANY'S REPLY TO SPAIN.

Berlin Foreign Office Says that It Was a Verbal One.

Berlin, Feb. 7.—The foreign office was informed today that The Associated Press has issued for publication the text of the replies of all the European courts except that of Germany to the request of Spain for concerted action by the powers sent out March 25, 1898, from Madrid. The Associated Press correspondent here asked for the text of the German answer to this request. The foreign office said that the answer of the German government was made orally by the German ambassador at Madrid. The answer was that Germany could not take the initiative in action, but would await the action of the other powers. Subsequent events made a further answer unnecessary.

## MEN OF PERFECT NERVES AND THEIR MEDICINE.

### Paine's Celery Compound Steadies the Hands That Run the Great Passenger Trains.

The Nerves Control and Determine the Health of Every Function of Brain and Body.

WHEN disease attacks the nervous system, the symptoms that at once manifest themselves differ in different persons. When the intricate and wonderful nervous system is in perfect condition, no man or woman is sick, except from infectious diseases.

Sleeplessness, dyspepsia, rheumatism, most of the weaknesses and ailments that exhibit themselves in different ways in men and women are now known to be only the local symptoms of the beginning of a diseased nervous system.

It is no more possible to cure these afflictions by superficial treatment than it is to dam the Mississippi by a bar of sand. The only effective cure for these diseases is the repair of nervous tissues.

It has been absolutely proven that Paine's Celery Compound cures nervous exhaustion in every aggravating form, as no other remedy in the world can, or does. In fact, it was by the urgent advice of the ablest medical authorities in this country that this

now famous remedy was first put upon the market within the reach of all people. No other remedy is today or ever has been openly and publicly endorsed by medical authorities. And Paine's Celery Compound is in no sense a patent medicine. From the very first its formula was, and it is today, freely furnished to physicians in good standing anywhere.

No man or woman whose nervous system is not in perfectly healthy condition can properly perform the work that is his or hers to do. No person with shattered nerves can run the race of life in competition with the healthy man. While this is true in every calling, there is no better example than the case of the engineers who guide the passenger trains on the railroads. And it is true that no one class of workmen furnishes a better example of what Paine's Celery Compound can accomplish than the railroad engineers of America. They rely only upon this one remedy to supply the tissues that their nerve-racking task exhausts. It was with the sanction of the authorities of the great New York Central Railroad that W. H. Raymond, the engineer who runs the famous Empire State Express, gave the following testimony:

The foreign office calls attention to cablegrams from Washington saying that the British embassy there admits making a second proposal April 11, 1898, but with no evil intentions against the United States. The foreign office added: "We fully recognize the fact that England had no evil intentions against the United States. The German government far from imputing such intentions, on the other hand and simply upon the basis of documents in the case, protests against London imputing to us intentions we never had."

## No Jesuits to Preach in Paris.

Paris, Feb. 7.—The cardinal archbishop of Paris has decided that no Jesuit shall be permitted to preach during the lenten season in any church in the capital.

This action is a result of the measures taken by the government to prosecute the members of the proscribed orders who violate the law of suppression of the unauthorized members. Many Jesuits are already being prosecuted for recent violations of this law.

## Want a Polygamy Amendment.

Washington, Feb. 7.—The movement for strong federal restrictions of polygamy by means of an amendment to the Constitution, has taken form again, and in response to many petitions and letters urging action, the house committee on judiciary today fixed Feb. 25 for a hearing on the subject.

## Von Buelow Espouses Agriculture.

Berlin, Feb. 7.—At a banquet tonight of the German council of agriculture, Count von Buelow, the imperial chancellor, in a long speech declared that he had espoused the cause of agriculture not merely from a feeling of duty, but with his whole heart.

"A chancellor without sympathy for agriculture would be a strange fellow," said Count von Buelow, "and he would soon trip up."

He declared opposition between the emperor and the agricultural community to be obviously a fiction, because while endeavoring to advance the interests of agriculture he had also carried the wishes and intention of the emperor, "whose loving and wise solicitude for agriculture could always be counted upon."

## Wrecked by a Waterspout.

New York, Feb. 8.—A water spout has wrecked a steamship, the Jerome, on the Mexico Central railway, causing many deaths and great damage on plantations, according to a Herald dispatch from Rio Janeiro, Brazil.

## RADCLIFFE RANCH TROUBLE.

Secy. Hay Demands that Gov. Orman Make an Investigation.

Denver, Colo., Feb. 8.—The news today says that a demand has been made upon Gov. Orman by Secy. of State Hay at Washington for an investigation of the destruction last summer of the buildings of Wm. Radcliffe, an Englishman located on Grand Mesa lakes in this state, by a mob. Radcliffe appealed to British Ambassador Pauncefoot for redress, demanding \$55,000 damages of Colorado. The trouble grew out of a dispute between ranchmen and Radcliffe over fishing privileges and culminated in the killing of a ranchman named Womack by one of Radcliffe's men. A few days later the buildings on the lakes were destroyed by fire, it was claimed, started by

monial for the benefit of the thousands of women in every calling who need a remedy that will restore nervous energy and purify the blood, and make and keep them well.

"An engineer on a fast passenger train feels a constant physical strain and tension on his whole nervous system, perhaps as much as any one else in the world. After forty years' experience that is my opinion. For eight years I have been one of the two engineers of the 'Empire State Express' on the New York Central & Hudson River Railroad, running between New York and Albany. This is the fastest passenger train on the American Continent."

"I have to be thankful for a good constitution to begin with, which has enabled me to keep up this work for the long time I have been engaged in it. There have been times, however, when I have felt run down or worn out, and needed a tonic to brace me for my work."

"I have taken Paine's Celery Compound to do this work for me and it is simply justice to say that it has done the work well. Paine's Celery Compound has done me no end of good. I took it because I had heard it spoken of as the best medicine sold anywhere, good for those who suffer from brain fatigue, from the depletion of the system from any cause, and for those who are building up after sickness."

"What I had heard of it proved to be true in my case and I do not hesitate to recommend Paine's Celery Compound for a nerve-building or force-building medicine. I have taken more of it than of all other medicines for the last twenty years. It has done the work for me and I feel sure it will do for any one else."

—W. H. RAYMOND.

New York, Nov. 10, 1901.

friends of Womack in revenge of his death. The matter was originally referred to Gov. Orman early in January, and according to the News, a communication from Secy. Hay has just been received asking what had become of it.

## American Girl to Marry a Prince.

New York, Feb. 8.—It is rumored that Miss Helena Gorham Wild, an American resident in Paris, says a Paris correspondent of the Herald, is about to marry Prince Eugene of Sweden, if he gains his father's assent and arranges to resign his right of succession to the throne of the Bernadottes for his elder brother. One did when he made a morganatic alliance.

Prince Eugene is a painter and has lived in the Latin quarter for many years.

## VIGOROUS AT 82 YEARS OF AGE.

Gilbert N. Hay, of Utlca, Says Duffy's Pure Malt Whiskey Keeps Him Vigorous and Strong at the age of 82.

Up to a few years ago I was an invalid and scarcely knew what it was to be well for twenty-four hours. I had grown thin and could not sleep until my doctor prescribed Duffy's Pure Malt Whiskey. Since I have started to take your whiskey I have been perfectly strong and well and have gained thirty pounds. It not only acts as a stimulant and tonic for me, but it aids my digestion and makes my blood circulate faster, and it keeps me from catching cold. I will take Duffy's Malt Whiskey as long as I live, and it will be my only medicine. It is truly a God-sent to old people and consumptives and those who are sickly. One druggist tried to sell me another medicine, but I refused. I said, "I will take Duffy's Pure Malt Whiskey," but I insisted that I wanted Duffy's and no other. It seems too good to be true. Druggists will try to sell their customers bogus goods when they know the customer needs the medicine. Your whiskey has done so much for me I feel it my duty to write and tell you about it. Very thankfully yours, GILBERT N. HAY, 79 Lafayette Street, Utlca, N. Y., Nov. 10, 1901.

## DUFFY'S PURE MALT WHISKEY

is absolutely pure and unadulterated and contains NO FUSEL OIL

It cures consumption, grip, asthma, catarrh, bronchitis, malaria and dyspepsia, stimulates the blood and invigorates the brain. Makes the old young, the young strong.

## Beware of Imitations.

Duffy's Pure Malt Whiskey is sold in sealed bottles only. It is our own patented bottle, and has the name "Duffy Malt Whiskey Company" blown in the bottle, and has the trade-mark, the "Chemist's Head," on the label. If offered in flasks or any other kind of a bottle, or in bulk, it is not Duffy's Pure Malt Whiskey. When a remedy has been before the public so long, has been recommended and prescribed by doctors, and has carried the blessings of health to so many thousands of homes as "Duffy's Pure Malt Whiskey," imitations are bound to arise. It is the only whiskey recognized by the government as a medicine. This is a guarantee. All druggists and grocers, or direct.

FREE.—If you are sick or run down, write Dr. J. C. DUFFY, 215 N. Y. ST., ROCHESTER, N. Y. All correspondence in strictest confidence. It will cost you nothing to learn how to regain health, strength and vitality. Write for two game counters for whisky, cognac, etc. Enclose 4 cents in postage to cover postage, also a valuable medical booklet free. Mention this paper.

Selden-Judson Drug Co., Salt Lake City, Wholesale Agents.

## UNCLE SAM'S GREAT BARGAIN.

Danish West Indies Purchase Was Simply a Snap.

## IMPORTANT TO THE NAVY.

Of Much Importance in Connection With Isthmian Canal—So Declares Senate Report With Treaty.

Washington, Feb. 7.—The recent favorable report by the senate committee on foreign relations on the treaty for the cession of the Danish West Indies islands was accompanied by a written statement made by that committee to the senate. This report holds that during 1900 the islands exported to the United States sugar, molasses and distilled spirits amounting to \$56,949, and that during the same period the importations from the United States amounted to \$924,524.

The annexation of the islands was sought by the United States years ago, and as far back as 1867 Denmark declined to sell the islands for \$5,000,000, but made a proposition to part with them for \$15,000,000. Secy. Seward offered \$7,500,000, which was declined. He afterward agreed to pay that amount for the islands of St. Thomas and St. John, but the trade fell through because of complications which arose.

Continuing, the report says: "These islands, together with Porto Rico, are of great importance in a strategic way, whether the strategy be military or commercial. St. Thomas is a natural port of call for all European trade bound to the West Indies, Central America or Northern South America. These islands, together with Porto Rico, form the northeastern corner of the Caribbean sea, and are of great importance in connection with the American isthmus, where a canal will be constructed between the Atlantic and Pacific. They are also of great importance in connection with our relations to regions of the Orinoco and the Amazon and with our control of the Windward passage."

"In view of the isthmian canal, and European settlements in South America, every additional acquisition by the United States is of value. Porto Rico is densely populated. Its roads are poor. It has a long coast line without ports for large vessels. It is consequently very difficult of defense. San Juan is the only harbor with fortifications and this is only suitable for vessels of light draft."

Explaining a provision in the treaty for continuing pensions for retired local functionaries, it is stated that the total amount required annually for this purpose will not exceed \$2,500. With reference to the telegraph company, it is stated that this is an English corporation and that the obligation to it is the nature of a subsidy of \$4,000 per year for the next five years. With the exception of this subsidy, the situation of the company in the islands is the same as that of companies holding concessions in Porto Rico and Cuba during the life of the grant.

Explanation is made of the relationship of Denmark to the sugar companies to the effect that Denmark originally made a loan of 1,474,729 crowns at a stipulated interest to this company. The interest not having been paid after twenty years, the Danish government took possession of the property and assumed all obligations growing out of this relationship. It is understood to be the purpose of the Danish government to put itself in a position to wind up the affairs of this company as soon as possible. An explicit assurance is given that "no responsibility or obligation of any kind rests on the government of the United States or the insurance company in connection with the St. Croix Sugar company."

## Chemistry at California University.

University of Oregon, Feb. 8.—Dr. Arthur Lachman, head of the department of chemistry, has accepted an offer from President Benjamin Ide Wheeler, of the University of California at Berkeley to arrange the course and to take charge of the instruction in chemistry in the University of California summer school.

## Doctors Do Not Endorse Patent Medicines. WHY?

Because they know that they often contain COCAINE, OPIUM, MORPHINE or some other narcotic which is not only injurious but often positively dangerous to the patient.

If you are in the habit of taking Patent Medicines for Catarrh, Colds, or Consumption, you have simply contracted the Opium or Cocaine habit—and don't realize it. You deceive yourself by saying it makes you feel better. AT THE TIME that may be true—people who begin using Opium for every little pain often feel better for the time being, but how about it when they stop the use of the deadly drug?

If you are a user of Patent Medicines—ASK YOUR FAMILY DOCTOR what he thinks about it—or if you want an expert opinion by Doctors, who make a Specialty of Catarrh and Chronic Diseases, ask Drs. Shores & Shores to explain to you the danger of using patent preparations that contain deadly narcotics.

## EVERY CASE IS A SPECIAL STUDY

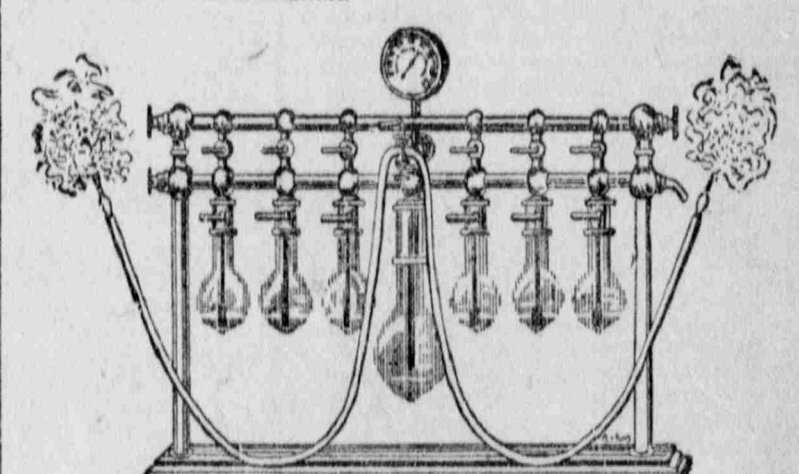

and requires special treatment to suit each individual case. CATARRH is CATARRH NOT A BLOOD DISEASE cannot be cured by taking internal medicine.

It requires careful local treatment, and treatment suited to the conditions existing in that particular case. No two cases are alike and seldom will two cases yield to the same treatment. Often the Stomach is involved and requires special attention and treatment. The kidneys and bladder sometimes become affected and unless they receive special attention serious trouble may follow.

If the lungs, the eyesight, or hearing are involved in the trouble you can readily see why the quackery of "Patent Medicine" will cure every ill that flesh is heir to.

Drs. Shores & Shores' system of mastering Chronic Diseases appeals to common sense; no mystery, no experimenting, no "cure-all," but each case is given careful scientific examination, and such treatment and medicines prescribed as will in their experienced judgment effect a cure quickly and safely and permanently. No ruined Stomachs, no Cutting or Cauterizing as "after effects" if you treat with Drs. Shores & Shores.

Drs. Shores' fees are low and uniform, within the easy reach of all. If you are sick consult RELIABLE DOCTORS—don't ruin your health and spoil your only chance of a cure, by using Quack Nostrums; don't allow some smooth grifter to hypnotize you and rob you of money and time by pretending to cure disease without Medicine.

## Drs. Shores' New Instrument.

This is one of the modern instruments used by Drs. Shores & Shores to carry their medicated and healing oils to the Nose, Throat, Eustachian Tubes and Lungs, curing Catarrh, Deafness, Asthma and Lung Diseases. COME and try this new invention, FREE. Ringing in the Ears, Spasms of Asthma, Hay Fever and Common Cold are many times cured in one treatment.

## "IT SOOTHES." "IT HEALS." "IT CURES."

These are the expressions heard many times a day in Drs. Shores' parlors from people who have tested our bested oils and treatments without benefit and in Drs. Shores' new treatment instant relief from Catarrh, Deafness, Asthma and Lung Diseases. The patient drinks into the air passages these healing balms and soothing oils, reaching every part of the mucous membrane of the nose, throat, eustachian tubes and lungs, like healing salve of a sore. No cutting, no cauterizing, no probing with dirty instruments, but by Drs. Shores' DIRECT CONTACT METHOD, with Drs. Shores' modern instruments, the medicated oils reach the sore spots and heal, are carried into the eustachian tubes, and the LOST HEARING IS RESTORED TO THE DEAF. The sufferers from lung diseases breathe into their lungs these SOOTHING OILS, and the soreness disappears, and in many so-called helplessness cases A CURE RESULTS. The spasms of Asthma are RELIEVED IN ONE TREATMENT. All made possible with Drs. Shores' new and wonderful instrument for this class of ailments.

## WE TREAT AND CURE

Catarrh and Stomach Troubles, Nervous Diseases, Kidney Diseases, Bladder Trouble, Heart Diseases, Diseases of the Stomach and Bowels, Piles, Flatula and Rectal Diseases, Female complaints, Diseases of Women and Children, Rickets, Spinal Troubles, Skin Diseases, Deafness, Asthma, Bronchitis and Lung Troubles, Consumption in the First Stages, Rheumatism, Hay Fever, Neuralgia, Hysteria, Eye and Ear Diseases, Gout or Big Neck, La Grippe, Lost Manhood, Blood Diseases, Special Diseases, Scrofula and all forms of Nervous and Chronic Diseases (that are curable). CONSULTATION FREE. CALL OR WRITE.

## THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is—Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. The genuine article may be bought anywhere of all reliable druggists at fifty cents per bottle. Please to remember, the full name of the Company—CALIFORNIA FIG SYRUP CO.—is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only.
